

St Peter's Hospice: Professional's End of Life Care Series

Dementia and End of Life Care

Dementia is a progressive condition. Providing good quality person centred care when approaching the end of life is key, both for the individual and their family. Many practitioners lack confidence in knowing how to support someone through this time.

Full day course just £40 per person

This one-day course is suitable for any registered practitioner (Nurse, AHP, Dr) working with adult patients who have Dementia within South Gloucestershire, Bristol and North Somerset.

COURSE CONTENT

- Principles of person centred holistic care at the end of life for people with dementia
- Recognising when a person with dementia is approaching the end of life.
- Managing distressing symptoms
- Challenges and importance of Advance Care Planning and decision making
