Network Governance

Clinical Governance Group, 21st March 2019

Cat McElvaney, Interim CHD Network Manager

Items Arising

1. The Network Board Structure
2. Clinical Governance Group- roles and responsibilities
3. Chairperson of the group
4. Reporting to the Network Board (next meeting 21st May)

The Previous Network Board Structure- a recap

Strengths	Weaknesses
Good representative of stakeholders	Infrequent for core team
Good general engagement	Lack of time for detail/can feel rushed
Broad range of topics covered	Limited opportunity for members to contribute
Making progress	Some inconsistency of membership
	Range of issues covered too broad
	Lack of accountability?
Opportunities	Threats
To break functions into smaller groups able to get into detail	Issues may fall through gaps
To have focused task and finish groups for defined short term projects	The groups don't interface properly
To use members' expertise & interests more	May have inconsistent membership
Better rhythm of meetings for Network team	
Greater accountability	

Agreed Network Board Structure

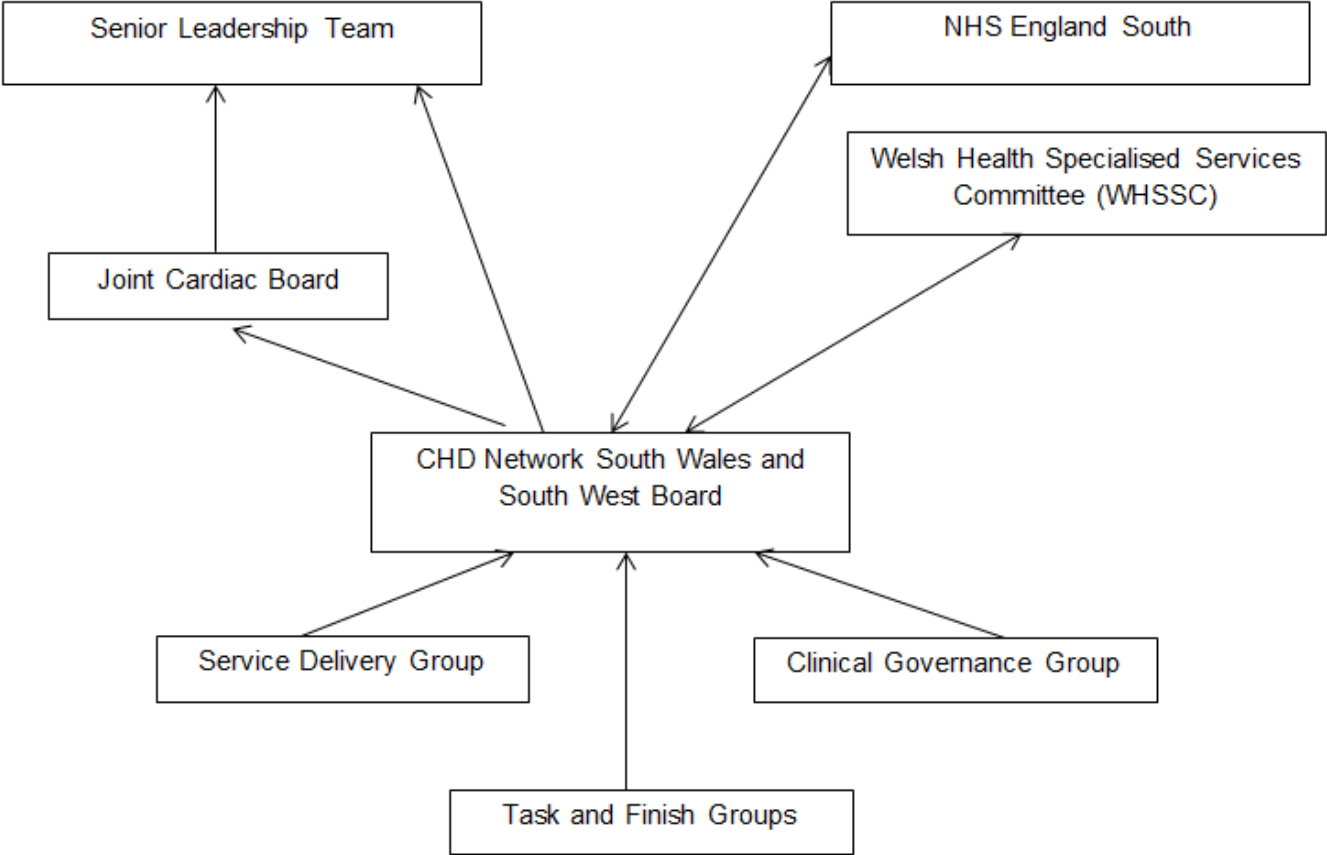

Network Governance

3.4 Diagram representing accountability:

Host Trust: University Hospitals Bristol

Commissioners

Remit of each group

Network Board	Network Clinical Governance Group	Network Service Delivery Group	Task & Finish Groups
Overall responsibility	Education and training programme	Standards & self-assessments	Specific tasks or projects
Escalation of concerns	Incident management and learning	Performance and capacity	Defined lifespan
Risks	Annual M&M	Workforce issues	For example:
Strategic direction	Audit programme	The website and other technology projects	Paediatric protocols group?
Performance assurance	Clinical pathways, protocols, guidance	Patient engagement and support groups	Discharge communications reference group?
Centres', commissioners, charity etc. updates	Patient leaflets and pathways	Finance/Tariffs etc	

Clinical Governance Group – roles and responsibilities
